

Public Performances

The board recognizes the educational and social values that may be derived from student participation in activities sponsored by community organizations.

Students may perform as a representative of the district or other organization of the district subject to the approval of the superintendent. Permission and approval to perform as a representative of the school or district will be contingent upon the superintendent's determination that such participation is in the best interests of the student, school, and district.

While students may perform in traditional musical events during the holiday season, a school-sponsored group will not perform or make such presentations in a worship service.

The activity, program, performance, or contest under consideration will have educational value consistent with the goals and objectives of the district. Participation will not result in exploitation of or liability to the student, school, or district. Students will not receive any remuneration for performing as representatives of the school or district.

Adoption Date: 9.15.2015
Shaw Island School District
Classification: Discretionary
